1. COMPETITIVE ANALYSIS

Tunisia must earn shelf space against four mature, high-converting Exodus destinations. The key question is not "Is Tunisia beautiful?" but "**What does Tunisia let us sell that we cannot already sell better elsewhere?**"

Theme	Morocco	Jordan	Egypt	Turkey	Tunisia's real position
Sahara desert	Strong but saturated	Wadi Rum (hero)	Hard logistics	None	Competitive, NOT differentiated
Roman / Classical heritage	Volubilis (one site)	Jerash (good)	Greco-Roman fringe	World-class	Tunisia's #1 weapon — density + no crowds
Berber heritage	Strong, commercialised	None	None	None	Strong & under-exploited
Layered civilisations	Good	Good	Pharaonic-dominant	Excellent	Outstanding, unique angle
Small footprint / short transfers	Long drives	Compact	Long + flights	Long	Major operational USP
Crowds / over-tourism	High	Petra very busy	Very high	High	Uncrowded
Food identity	Famous	Moderate	Moderate	Famous	Under-told story
Price / value	Rising	Expensive	Cheap-ish	Moderate	Excellent value
Brand awareness	Very high	Very high	Very high	Very high	Tunisia's weakness ("beach package")

Verdict: Tunisia is NOT a desert destination first. Defensible positioning = **"The undiscovered classical Mediterranean — Roman ruins without the crowds, the Berber south, and a layered cultural story, all in one compact, walkable country."**

2. USPs, GAPS & WHAT EXODUS LACKS IN NORTH AFRICA

USPs (defensible):

1. Roman archaeology density at near-zero crowds — El Jem (UNESCO), Dougga (UNESCO), Bulla Regia (underground villas, unique on earth), Carthage, Sbeitla.
2. Compactness — short transfers, low fatigue, high content-per-day.
3. Layered civilisations in a single loop (Phoenician → Roman → Byzantine → Arab → Ottoman → French).
4. Berber south without Morocco-level commercialisation.
5. Value + safety + ease (visa-free for target markets; ~2.5–3h from UK/Europe).

Underdeveloped themes / gaps: culinary storytelling; walking/soft-adventure cultural hybrid; "slow Tunisia" village stays; Roman-focused premium cultural touring.

What Exodus lacks in North Africa today:

- No "Roman North Africa" classical lead product.
- No short, compact, low-fatigue cultural week in the region.
- No food-led North African product.

3. IDEAL EXODUS CUSTOMER

Attribute	Profile
Primary persona	Cultural Explorer, 50–70, ABC1, UK first, then NW Europe, North America, Australia
Secondary persona	Active 40–55 couples; solos (strong Exodus base)
Age range	Core 55–70; must also work for 45+
Activity level	Easy to Moderate
Budget	Mid to upper-mid (strong margin vs Jordan)
Motivations	History/archaeology, authentic encounters, food, "off the beaten track", safety, ease, great guiding, responsible travel
Emotional hook	<i>"I've done Morocco and Jordan — show me something my friends haven't done."</i>

4. FLAGSHIP PORTFOLIO (5 PRODUCTS)

① Roman Tunisia — Empires of the Sand

- Positioning: classical-heritage flagship, "crowd-free Roman world."
- Audience: Cultural Explorers 55–70, history buffs, solos. Duration: 8 days. Grading: Easy. Season: Mar–May, Sep–Nov.
- Selling points: Dougga, El Jem, Bulla Regia, Carthage, Sbeitla, Kairouan; expert guiding; uncrowded; short transfers.
- Why Exodus: fills a genuine gap, sharp differentiation, highest conversion in core demographic.

② Berber South & Sahara — Tunisia Beyond the Map

- Positioning: soft-adventure + Berber heritage + desert.
- Audience: active 45–65. Duration: 8–9 days. Grading: Moderate. Season: Oct–Apr.
- Selling points: ksour & ghorfas, Chenini & Douiret, Matmata, Ksar Ghilane Sahara camp, authentic Berber encounters.
- Why Exodus: differentiated from Morocco's commercialised circuit; culture-adventure hybrid.

③ The Grand Tunisia Journey — North to Sahara (**SELECTED FOR DETAILED BUILD**)

- Positioning: comprehensive "best of" — Roman north + Berber south + Sahara + island culture.
- Audience: first-time-to-Tunisia Cultural Explorers; the "one big trip" buyer. Duration: 12 days. Grading: Moderate. Season: Mar–May, Oct–Nov.
- Why Exodus: highest revenue-per-pax; the anchor product that defines the destination.

④ Flavours of Tunisia — A Culinary & Cultural Journey

- Positioning: food-led cultural touring. Audience: foodie 45–65. Duration: 7–8 days. Grading: Easy. Season: spring/autumn.
- Selling points: cooking with families, harissa & olive oil producers, Andalusian Testour, Djerban fusion.
- Why Exodus: fills the food gap, strong marketing appeal. Launch later.

⑤ Walking Tunisia — Coast, Oases & Berber Trails

- Positioning: soft-adventure walking. Audience: walkers 45–65. Duration: 8 days. Grading: Moderate–Challenging. Season: Oct–Nov, Mar–Apr.
- Why Exodus: plugs into Walking & Trekking category, BUT highest operational risk; prove destination first.

5. COMMERCIAL RANKING (highest → lowest)

1. ① **Roman Tunisia** — only product that gives a reason to ignore Morocco/Jordan; Easy grading = widest audience; premium guiding = premium price.
2. ③ **Grand Tunisia Journey** — best revenue-per-pax; defines the destination; risk = length/price/pacing.
3. ② **Berber South & Sahara** — strong differentiation; do NOT sell as a desert trip; sell as Berber heritage with desert finale.
4. ④ **Flavours of Tunisia** — on-trend but niche; launch once destination is established.
5. ⑤ **Walking Tunisia** — highest operational risk; introduce only after the destination is proven.

6. HEAD OF CONTRACTING VERDICT

I would contract ① Roman Tunisia first, plus a limited pilot of ③, in year one. Rationale: it is the only product that sells a reason to ignore Morocco and Jordan; Easy grading de-risks the launch; premium guiding protects margin. **I would not contract all five at once** — that splits marketing spend and guarantees thin departures.

The make-or-break dependency: guide quality. The entire classical proposition lives or dies on genuinely expert, English-fluent, narrative-driven guides. Depart Travel must prove this before signature.

Contracting sequence: Y1 contract ① + pilot ③ · Y2 add ② · Y3 add ④ · Hold ⑤ until trails verified.

7. FLAGSHIP DETAILED BUILD

THE GRAND TUNISIA JOURNEY — North to Sahara (12 Days)

PM note on positioning: This is product ③, the anchor "best of" loop. It is deliberately comprehensive. The two commercial risks we engineer around are (a) drive fatigue (Day 4 is the long leg) and (b) the Djerba beach-perception trap — Djerba is built here as *cultural Djerba*, never resort downtime.

Trip code (proposed): TUN-GRAND-12

Duration: 12 days / 11 nights

Grading: Moderate (long but compact; one desert camp night; site walking on uneven ground)

Best season: Mar–May and Oct–Nov (avoid Jun–Aug desert heat)

Group size: 4–16 (small-group); also offered as private/tailor-made

Start/End: Tunis (arrival) / Enfidha–Hammamet or Tunis (departure)

7.1 DAY-BY-DAY ITINERARY

Day 1 — Arrival in Tunis: Meet & Greet.

Private airport transfer, welcome by Tunis-based representative. Free time to recover. Evening welcome briefing + group dinner in a restored medina dar (townhouse). *Driving: minimal.*

Day 2 — Tunis: Medina, Bardo, Carthage & Sidi Bou Saïd.

Continue to the **Bardo Museum** — the world's finest collection of Roman mosaics. **Lunch in a local restaurant.** Afternoon at the **Carthage** archaeological site (Phoenician/Roman/Byzantine layers — Byrsa Hill, Antonine Baths). Finish with sunset in the blue-and-white village of **Sidi Bou Saïd**. *Driving: light, all greater Tunis.*

Day 3 — Testour, Dougga & Kairouan.

Drive west to Testour (Andalusian-Moorish heritage town, unique mosque). On to **Dougga (UNESCO)** — the best-preserved Roman town in North Africa; 2–2.5h guided walk. Lunch. Drive south to **Kairouan (UNESCO)**, Islam's fourth holiest city; visit the old medina and taste the local **Makroudh** pastry. Overnight Kairouan. *Driving: ~3.5h total, broken by sites.*

Day 4 — Kairouan, Sbeitla & Tozeur. (*Long leg — engineered with breaks.*)

Morning: Great Mosque of Kairouan + Aghlabid basins. Drive to **Sbeitla (Sufetula)** — magnificent Roman forum & three temples; guided visit + lunch. Continue to **Tozeur**, gateway to the Sahara, palm oasis town with distinctive brick architecture. Overnight Tozeur. *Driving: the trip's longest day (~4.5–5h split by Sbeitla).*

Day 5 — Mountain Oases & Canyons.

4x4 excursion to the **mountain oases of Chebika, Tamerza and Midès** (canyons, waterfalls, palmeraies on the Algerian frontier). Visit the **Mos Espa** Star Wars film set near Tozeur (light-touch, optional). Afternoon: Tozeur old town (Ouled el Hadeff quarter). Overnight Tozeur. *Driving: 4x4 day, scenic.*

Day 6 — Chott el Jerid & Night in the Sahara.

Cross the **Chott el Jerid** salt lake (mirage country) with a photo stop, and see the hot-spring channels

used to irrigate the palm groves. Arrive in **Douz** (the "gateway to the Sahara") for lunch and a visit to the **Douz Bedouin Museum**, then continue to the **Sabria camp** at the edge of the Grand Erg Oriental. Meet the camel handlers and ride into the heart of the dunes to settle in the middle of nowhere — help the team gather wood and build the campfire, with dinner prepared on site and a **night of wild bivouac under the stars**. (Guests who prefer more comfort can return to the permanent camp for the night in en-suite, air-conditioned "luxe nomad" tents.) Star-gazing, **Berber music & storytelling by local performers**, traditional dinner. *Driving: ~3–4h + transfer to camp.*

Day 7 — Matmata, Tataouine & Chenini.

Drive to **Matmata**; visit the **Tamazret Berber museum** and the troglodyte underground Berber dwellings, including a family home. Continue to the **Tataouine** region — the ksour and *ghorfas* (fortified Berber granaries, e.g. Ksar Ouled Soltane). Late afternoon at the dramatic hilltop Berber village of **Chenini** and its iconic white mosque. Overnight Tataouine. *Driving: ~3–4h split by stops.*

Day 8 — Djerba Island (Cultural).

Transfer to **Djerba** via the Roman causeway (El Kantara). *Cultural* Djerba: **El Ghriba**, one of the oldest synagogues in the world & living Jewish-Berber heritage; **Houmt Souk** old town & fishing port; **Guellala** pottery workshops; and a visit to the **Djerbahood** street-art quarter. Overnight Djerba. *Driving: light, island-based.*

Day 9 — Djerba: Free Day (Heritage & Encounters).

A free day on the island, with the option of a **private sea tour by boat** or a **full cultural day** exploring Djerba's UNESCO heritage — traditional weaving, menzel (fortified farmhouse) heritage, olive-oil and date producers, and an optional lagoon/flamingo viewpoint. Island cuisine experience. Overnight Djerba. *Driving: light. (Note: kept cultural, not beach — protects brand positioning.)*

Day 10 — El Jem & Sousse.

Drive north to **El Jem (UNESCO)** — the colossal Roman amphitheatre (one of the largest in the world) + mosaic museum. Lunch. Continue to **Sousse**; guided visit of the **UNESCO Medina**, Ribat and Great Mosque. Overnight Sousse. *Driving: ~2.5–3h split by El Jem.*

Day 11 — Hammamet.

Coastal drive to **Hammamet**: the Kasbah and old medina, the Andalusian quarter, and **Dar Sebastian / International Cultural Centre** gardens. Afternoon at leisure / optional hammam or **wine tasting at a local vineyard**. Farewell dinner. Overnight Hammamet. *Driving: ~1h.*

Day 12 — Departure.

Transfer to Enfidha–Hammamet or Tunis–Carthage airport. *Driving: 30–60 min depending on airport.*

7.9 OPERATIONAL FEASIBILITY

- **Strengths:** compact loop, short-haul access, year-round-able in shoulder seasons, strong site density, no internal flights required.
- **Watch points:**
 1. **Day 4 long drive (Kairouan → Tozeur)** — mitigated by Sbeitla stop + lunch; consider optional overnight rebalancing for older groups.
 2. **Desert heat** — strict Mar–May / Oct–Nov operating window.
 3. **Djerba positioning** — must be sold and operated as cultural, not beach, to protect brand fit.
 4. **Guide consistency** — single biggest risk; resolved via Depart Travel guide vetting + Exodus sign-off.
 5. **Pacing** — 12 days with daily moves; consider an optional shorter 10-day variant dropping one Djerba night and one oasis element.
- **Routing logic:** clockwise loop (Tunis → west → south-west → Sahara → south-east → island → coast → north) avoids backtracking and ends near Enfidha airport.
