Overview

Roman ruins without the crowds, the Berber south and a night in the Sahara — the complete Tunisia in one compact loop.

Over twelve immersive days we trace every layer of Tunisia's story: the mosaics of the Bardo and the ruins of Carthage, the crowd-free Roman cities of Dougga and Sbeitla, the holy city of Kairouan, and the colossal amphitheatre of El Jem. We cross the Chott el Jerid salt lake to ride a camel into the dunes and sleep under the stars, meet Berber hosts in the troglodyte villages of the south, and discover the living Jewish-Berber heritage of Djerba — before finishing on the Mediterranean coast at Sousse and Hammamet. Short transfers and uncrowded sites make this one of the most rewarding and relaxed cultural journeys in North Africa.

One of our most distinctive trips for 2026 — here's why. While everyone else queues in Morocco and Jordan, Tunisia delivers the same desert romance and even richer Roman heritage with a fraction of the crowds, on a small, walkable footprint. — *Depart Travel Services*
