TUNISIA

Responsible luxury, beyond the beach — prepared for Earth Trip

WHO WE ARE

Depart Travel Services is a licensed Tunisian Destination Management Company (DMC) based on the island of Djerba. We are not an intermediary and not a foreign agency operating from afar — we are a true *local* specialist, born and run in Tunisia, with the ground knowledge, relationships and access that only come from being here every day.

We operate our own fully insured fleet, employ ONTT-certified, English-speaking tour leaders, and provide genuine 24/7 in-destination support. Our craft is private, tailor-made journeys built around boutique and heritage stays, authentic encounters and a deeply responsible way of travelling. For a tailor-made operator, we are the local partner who turns an itinerary on paper into a flawless, personal experience on the ground.

WHY DEPART TRAVEL — FOR EARTH TRIP

Earth Trip builds responsible, luxury, tailor-made travel for discerning FITs and small groups — clients who have seen a great deal and are always looking for somewhere fresh. Tunisia, delivered through a true local specialist, is exactly that. Here is how we map to what matters to you:

- **Responsible luxury, not a contradiction.** Around 95% of our accommodation and 90% of meals are locally owned; artisans and hosts are paid fairly and directly. We pair that with genuinely premium boutique and heritage stays and a Superior accommodation tier for your luxury clients — comfort and conscience in the same itinerary.
 - **Boutique, heritage and premium service.** Restored *dars*, oasis palaces and an upscale desert camp — characterful, locally owned properties rather than anonymous international chains, backed by private guiding and attentive, personal service.
 - **Private and tailor-made by default.** Every journey is built to the individual client: pace, interests, accommodation tier and routing. Guaranteed departures from just 2 passengers.
 - **A true local Tunisian specialist — replacing the Moroccan DMC.** You have run Tunisia through a Moroccan DMC before. We are on the ground in Tunisia: local fleet, local leaders, local relationships, local accountability. Nothing is subcontracted across a border.
 - **Beyond the beach.** Roman cities, Berber troglodyte villages, Saharan dunes, holy Kairouan, oasis and mountain landscapes — the cultural and adventure depth your repeat clients crave.
 - **Fresh for your 85% repeat clientele.** Tunisia is a destination most of your loyal travellers will not yet have done — new ground for a base of clients always seeking the next discovery.
 - **Families and solos welcomed.** Flexible private touring suits multi-generational families, and there is **no compulsory single supplement**, which makes us a natural fit for solo travellers.

WHY TUNISIA — BEYOND THE BEACH

Tunisia packs an extraordinary range into a compact, easily-toured country. In a single tailor-made journey a client can stand in the Roman amphitheatre of El Jem, trace mosaics at the Bardo, sleep in a restored Berber troglodyte house, ride a camel into the Sahara to a camp beneath the stars, wander the holy medina of Kairouan, and finish among the whitewashed-and-blue lanes of Sidi Bou Saïd.

It is one of the most accessible and safe-feeling corners of North Africa, with short internal transfers, warm hospitality, and a cultural layering — Berber, Carthaginian, Roman, Arab, Ottoman, French — that few destinations of its size can rival. For an operator whose clients have "done" the obvious, Tunisia beyond the beach is a genuinely fresh, story-rich proposition.

- **Locally owned, locally enjoyed:** ~95% of accommodation and ~90% of meals are locally owned, keeping spend in Tunisian communities.
- **Fair, direct pay** to the artisans, hosts and families your clients meet — Guellala potters, Djerba weavers, Berber host families.
- **Animal welfare:** camel experiences are always optional and run on ABTA-aligned welfare terms.
- **Lower-impact basics:** reusable water provision and a move away from single-use plastics.
- **Carbon transparency:** indicative CO₂e-per-night figures available, and we are eCollective-ready for clients who wish to offset.

The result is a journey your clients can feel good about — luxury that is also genuinely local and low-impact.
