Boutique stays, desert glamping & farm-to-table — prepared for
Journey Travel

WHO WE ARE

Depart Travel Services is a licensed Tunisian Destination Management Company (DMC) based on the island of Djerba. We design and operate journeys across the whole of Tunisia — from the Mediterranean coast and the Andalusian craft towns to the mountain oases of the Jebel and the dunes of the Sahara — with our own insured vehicle fleet and ONTT-certified tour leaders. **Spanish-speaking guides are available on request**, and every departure is backed by 24/7 in-country support.

Our model is deliberately small-scale and people-centred. We work hand in hand with the families, farmers, artisans, hosts and small hoteliers who make Tunisia worth travelling — paying them directly and fairly. Whether your clients travel as a family, a small private group, or on a fully tailor-made basis, we deliver precise, dependable itineraries with the warmth of genuine local hospitality and gentle, family-friendly pacing.

WHY DEPART TRAVEL — FOR JOURNEY TRAVEL

Journey Travel is a new Spanish tour operator building a fresh, high-value product offering for families — unique experiences that showcase cultural, culinary and natural heritage through a sustainability lens, anchored by boutique accommodation. Tunisia delivers all of this within a compact, easy-access country a short flight from Spain, and Depart Travel Services is built to help a new operator launch a fresh destination with confidence. Here is how our offering maps directly onto the way you want to build travel.

- **Charming boutique & heritage stays.** Around 95% of the accommodation we use is locally owned: characterful island *dars* (Dar Dhiafa), oasis palaces (Tamerza Palace), restored troglodyte guesthouses and intimate heritage houses — the small, distinctive properties your clients favour over big hotels. Family rooms available throughout.
- **Glamping in the desert.** Our boutique desert camp (Dunes Insolites) offers en-suite tents under the stars on the edge of the Sahara, with optional camel trek and Berber music around the fire — a signature high-value experience for families.
- **Berber & Troglodyte heritage.** Tea and a home-cooked meal in a Berber family home in Matmata and Tamazret, a stay in a restored troglodyte house, and the dramatic ksour of the south — living traditions met as encounters, not performances.
- **Farm-to-table & culinary workshops.** Hands-on cooking with local families, harissa and olive-oil producers, oasis palm-grove visits, and the Andalusian-Tunisian fusion of Testour and Djerba — roughly 90% of meals are taken in family kitchens and locally-owned establishments.
- **Regenerative tourism & rural-community support.** Fair, direct pay to artisans, farmers and hosts; spending channelled into rural villages and oasis communities; ABTA-aligned animal

welfare (every camel ride optional); reusable water solutions; CO2e-per-night figures and eCollective-ready carbon reporting.

- **Family-friendly by design.** Gentle pacing, family rooms, interactive workshops and hands-on encounters that engage children and adults alike.
 - **A reliable launch partner.** Detailed day-by-day programmes, clear inclusions, net twin-share land-only rates with no compulsory single supplement, departures guaranteed from 2 pax, and a costed reply within 72 hours — exactly the certainty a new operator needs.

WHY TUNISIA FOR YOUR FAMILIES & FOODIES

Tunisia packs an extraordinary range into a small, walkable country. In a single trip your families move from Mediterranean medinas and Andalusian craft towns to the Berber south, the troglodyte villages of Matmata, the mountain oases of the Jebel and the silence of the Sahara. The food is the heart of it: harissa pounded by hand, olive oil pressed in family mills, bread baked in oasis kitchens, and the layered Andalusian-Djerban-Berber culinary heritage that makes every region taste different.

Distances are short, the season is long, and direct flights from Spain are frequent and affordable. For a new operator targeting families and foodies, Tunisia offers genuine, high-value experiences — culinary workshops, glamping under the stars, heritage stays — at net rates that leave healthy margin, all while channelling real benefit into the rural communities that host your clients.

REGENERATIVE TRAVEL

For Depart Travel Services, sustainability is not a footnote — it is how the trips are built, and it is designed to leave rural Tunisian communities measurably better off.

- **Local ownership.** Around 95% of the accommodation we use is locally owned, and roughly 90% of meals are taken in family kitchens and locally-owned establishments — so your clients' spending stays in the villages, oases and islands that host them.
- **Fair, direct pay.** We pay artisans, farmers, cooks and hosts directly and fairly — the harissa producer, the olive miller, the Berber family in Matmata, the Guellala potter. Tourism becomes a reliable income for rural households.
- **Rural-community support.** Itineraries are deliberately routed through small inland and southern communities that see fewer visitors, spreading benefit beyond the coastal resorts.
- **Animal welfare.** ABTA-aligned practice; every camel ride is optional and never a condition of the experience.
- **Lower footprint.** Reusable water solutions, CO2e-per-night figures, and eCollective-ready reporting so Journey Travel can account for the carbon of every trip with confidence.

This is regenerative tourism your families can feel good about — and a credible sustainability story for a new operator to build a brand around.
